THE MUSIC ?

THE SYNOPSIS

Imagine a world with no inconsistencies or imperfections. Where timeliness plus efficiency equals productiveness, and everything is in working order.

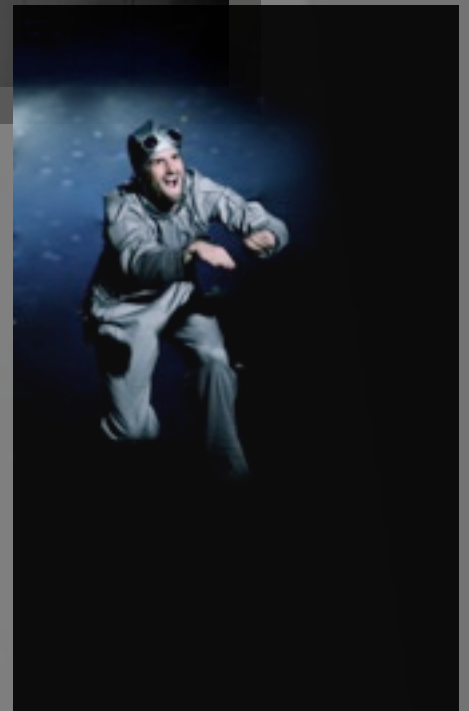

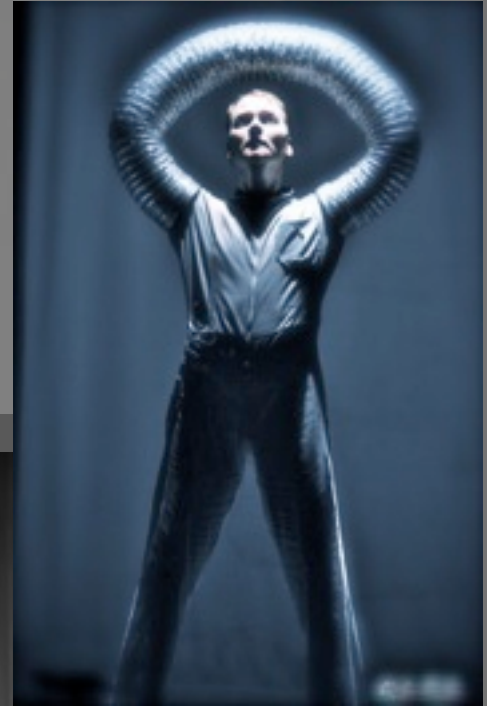

Now imagine a world with no music...

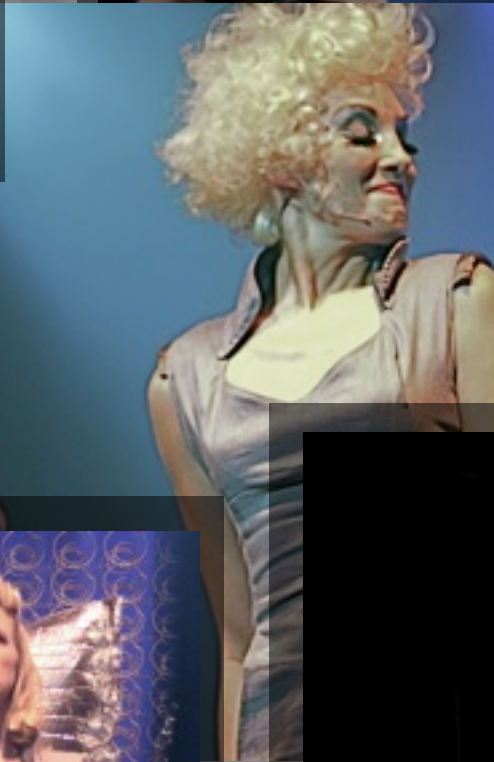

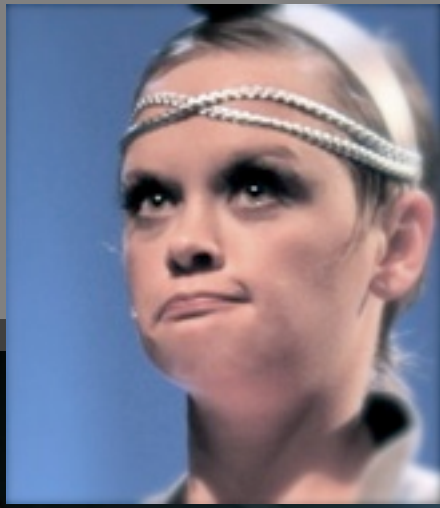

Foster, a citizen of Extropia, is like any other... his teeth are hard. His tongue is pink— but not too pink. He has the right amount of body hair.

But something is very wrong. Foster is in a state. He can hear "too well"....

Sounds, every day sounds are coming together, falling into order in his head and no one can explain it
